

ACHKARI BEGDOURI MOHAMED

SOFTWARE & WEB DEVELOPER

Morocco, Tanger | achkarimohamed1999@gmail.com | [linkedin.com/in/mohamed-achkari-b-/](https://www.linkedin.com/in/mohamed-achkari-b-/)

SUMMARY

Passionate lifelong learner with hands-on software development and leadership experience. Excellent communicator skilled at using AI and prompt engineering to triple results. Enthusiastic about data analytics and turning insights into impactful solutions.

PROFESSIONAL EXPERIENCE

InfoM4th Computer Science Club – President

Sep 2023 - Sep 2024

- Led the club's strategic vision and execution, including spearheading the development and launch of the official club website. Coordinated a diverse team to deliver key initiatives, fostered effective communication, and secured partnerships with companies and organizations to expand the club's reach. This role honed my leadership, project management, and technical skills in software development and collaboration.

Faculty Registration Team – Leader

Sep2023 - Oct 2023

- Directed the rollout of a new digital enrollment system for incoming students, overseeing all stages from planning to execution.
- Coordinated cross-functional team workflows and ensured seamless communication between students and administration.
- Delivered a smooth, accurate, and accessible registration experience, enhancing satisfaction and efficiency.
- Strengthened skills in digital transformation, problem-solving, and academic team management.

Freelance Developer

Mars 2025 - Present

- Design and develop full-stack web and desktop applications tailored to client needs.
- Deliver functional prototypes within 48 hours to validate concepts quickly.
- Build modern, responsive user interfaces with strong UI/UX focus.
- Provide custom software solutions (management systems, AI-powered tools, automation).
- Offer SaaS (Software as a Service) and IaaS (Infrastructure as a Service) solutions for scalable and cloud-based projects.
- Collaborate with clients to ensure fast, precise, and professional results.

PROJECTS

- InfoM4th Computer Science Club Website
Led the end-to-end development of the club's official site using HTML, CSS, JavaScript, and PHP. Implemented responsive design, dynamic content management, and integrated member registration and event calendars to enhance student engagement.
- Gaming News Platform
Designed and built a full-stack gaming news portal featuring real-time article feeds, user comments, and a rating system. Utilized PHP and MySQL for the backend API, and modern HTML/CSS with JavaScript for a responsive, interactive frontend.

- Futuristic Mini Browser

Developed a custom browser prototype in Java and C++, embedding the Chromium engine and integrating AI-powered features. Focused on performance optimization and an extensible plugin architecture

- RightMind Lab Collection

1.RightMind – AI Model Recommendation

Built a web tool that recommends the best AI models based on benchmark analytics.

Users input a prompt and receive the top 4 model suggestions depending on preferences (quality, pricing, speed).

Supports custom benchmark data for more tailored recommendations.

2.RightMind – Supe AI

Developed a multi-model orchestration system.

Prompts are decomposed into subtasks, each matched to the best-performing AI model using benchmark analysis.

Supports integration of user-provided API keys for model selection.

Delivers optimized responses by combining multiple specialized models.

3.RightMind – QUANTUM.DEV

Designed a futuristic digital services platform with an immersive, game-like experience.

Visitors explore company or individual service offerings through interactive design and hidden easter eggs.

Blends business presentation with entertainment for a unique user journey.

EDUCATION

Bachelor's degree in computer science

Faculty of Science Tetouan, University abdelmalek essaadi

Minor in software development, Data analytics and prompt engineering

SKILLS

Technical Skills

- Programming Languages: Java, JavaScript, C, C++, PHP, HTML, CSS
- SQL and Database Management
- Website Development
- Prompt Engineering
- Large Language Models (LLMs)
- AI Solutions Design
- Technical Documentation

Professional / Business Skills

- Digital Transformation
- Project Management
- Strategic Partnerships

Interpersonal & Cognitive Skills

- Analytical Thinking
- Problem-Solving
- Communication and Collaboration
- Team Leadership
- Adaptability
- Continuous Learning

Languages

- Arabic (Native)
- French (Fluent)
- English (Fluent)

ADDITIONAL INFORMATION

- **Certifications:** President & Leadership Excellence (InfoM4th), Certificate of Achievement in New Student Registration (FS-Tetouan), Intermediate C Programming Certification (StudySection)
- **hobbies :**
 1. Competitive Programming Competitions: Participating in algorithmic challenges to hone problem-solving and coding speed.
 2. Tech News & Blogs: Regularly reading technology blogs and news to stay current with industry trends.
 3. Competitive Gaming: Strategizing in multiplayer games to enhance teamwork and quick decision-making.
 4. Hiking & Adventure Sports: Exploring nature trails and pushing physical limits through rock climbing and trail running.
 5. Digital Photography: Capturing dynamic landscapes and event moments, with a focus on storytelling through images.
 6. Public Speaking & Workshops: Leading tech talks and workshops on AI and software development at university events.
